

SECURE STORAGE FACT SHEET

Keeping your assets secure:
EWASTE+ provides secure storage options to meet your individual needs and budget. Our R2v3 and NAID certified facilities feature:

- +24/7 monitoring
- +Over 40 CCTV cameras
- +Access Controls
- +7-year background checks for all access employees.

OUR LOCATIONS

QUICK FACTS:

- The cost per square foot for warehouse space has surged by 23% year-over-year, with even steeper increases in major metropolitan areas.
- Rising overhead costs are deterring many customers from expanding their physical warehouse space or leasing additional flex space.
- Due to storage constraints, some customers are storing IT assets in non-secure environments, compromising the secure chain of custody and exposing their organization to potential theft and security breaches.
- **EWASTE+** offers an affordable, convenient, and secure alternative.
- Our storage service includes pickup and transportation, secure storage in our NAID-certified facility, and detailed reporting for full traceability.
- Customers can request delivery of their equipment back to their facility at any time or choose to dispose of their equipment at our R2v3 certified facility when the time comes.
- **NEXT STEPS:** Contact one of our client services representatives to learn more!

Since 1995, **EWASTE+** has become the trusted electronics recycling partner for a variety of organizations that value the importance of a secure, safe and transparent process. EWASTE+ offers a full spectrum of technology life cycle management services with a focus on electronics recycling, data destruction, and value recovery.

Secure Storage:

How does it work?:

- + **Schedule a Pickup:** Contact your Client Services representative to arrange a pickup.
- + **Equipment Collection:** Our uniformed drivers will collect your equipment and can even provide a white glove service if items are not yet palletized.
- + **Secure Transport:** Your assets are safely transported in our company owned fleet of GPS-monitored, locking trucks. All drivers hold CDL Class A and B licenses, undergo 7-year background checks, regular DOT compliant drug/alcohol testing, and participate in our required monthly safety program.
- + **Asset Processing:** Upon arrival at our facility, assets are logged by our asset management team. Optional services include serialization, make/model capture, and data destruction. For more information on data destruction, visit <https://ewaste.com/our-services/data-destruction/>
- + **Inventory Storage:** After processing, your inventory is moved into secure storage. Options include: Secure Trailer Storage, Indoor Warehouse Storage and Locking Cage Storage.
- + **Flexible Options:** Request return delivery of your equipment at any time or choose Secure Recycling and Data Recycling Services at one of our R2v3 and NAID certified facilities.
- + **Contact your Client Services Representative for pricing or call 585-924-3840**
